

## CARDIAC SCIENCE AED G3 ACCESSORIES

### Cardiac Science AED G3 Accessories – The Complete Heartsafe Environment Package.

Introducing a line of AED accessories that includes valuable safety resources, which combine to offer a complete solution for a Heartsafe Environment. Our accessories give users effective storage and placement options, insure that their AED equipment is clearly visible and easily accessible, and provide them with essential rescue tools that will facilitate responses to cardiac and CPR-related emergencies.

Cardiac Science wall mounts and wire racks are the perfect AED placement solutions for busy facilities. Both provide AED visibility and convenient accessibility. Additionally, each placement option clearly displays expiration dates and the RescueReady® indicator, which insures that the AED is easily accessible for a rescue.

Cardiac Science's Total Response Rescue Cases and Backpacks offer storage options to the mobile user. The portable accessories make transportation easy, and allow the user to respond to emergencies with all equipment in a timely manner.

In addition to the storage and placement solutions, Cardiac Science also offers accessories that facilitate the actual rescue. The Rescue Kit, Total Response Rescue Kit, ResQPOD, adult and pediatric defibrillation pads, and O<sub>2</sub> supplies are additional accessories that help complete the total Heartsafe Environment package.

All accessories are compatible with the Powerheart AED G3. To learn more about the best choice in AED accessories, visit our website [www.aedeverywhere.com](http://www.aedeverywhere.com), or email [aed@aedeverywhere.com](mailto:aed@aedeverywhere.com), or call 1.877.751.5300 (USA and Canada only).
